

Personalized care you can count on

For over 50 years, East Jefferson General Hospital has been deeply rooted in the community, providing extraordinary care to East Jefferson Parish. We look forward to continuing that tradition while also bringing additional services and advanced treatments to our patients.

Treating our community like family is the only way we know. We've been sharing the love with our community since 1971 through our commitment to one-of-a-kind care for every body, from head to toe. Our national accolades speak for themselves. East Jefferson is the only hospital in Louisiana to have obtained a fifth Magnet re-designation for our commitment to nursing excellence. We're proud to be an amazing place to work and an extraordinary place for patients to receive care.
